

## Annex №14 to the Bank Service Agreement - Card 3D Security

1. The **Card 3D Security** is additional protection means provided by the **Bank** to the **Customer** to ensure safe execution of the internet (online) **Payments/Transfers** by the **Cards** of the **Customer/Card Holder** in their ownership/possession, if such support is provided for the appropriate web-site;
2. The **Card 3D Security** may be activated only on the **Card** of VISA and MasterCard payment system.
3. The **Customer/Card Holder** indicates the **Financial Number** and/or **Digipass** in the **Application** to receive a **One-Shot Code** for the purpose of the additional confirmation of the corresponding **Payment/Transfer** execution via the Internet (online);
4. If the **Customer/Card Holder** has already activated the **Card 3D Security**, the **Payment/Transfer** may be executed by the **Bank** only after additional confirmation received by the **One-Shot Code**, if the appropriate web-site provides such support.
5. The **Card 3D Security** becomes effective since its activation and stays so till the **Card** expiry date or till its deactivation stipulated by this **Annex**.
6. Deactivation of the **Card 3D Security** shall be carried out by the way of submitting a corresponding **Application** to the **Bank**.
